

Navigating System Setup

Once loaded, the System Setup area can be navigated using menu options on the left of screen or via the main pane on the right side.

The screenshot displays the 'eccentex' System Setup interface. On the left, a dark sidebar contains a navigation menu with the following items: 'My Home', 'Company', 'User Management', 'Solutions', 'Environments', 'Tenant Resources', and 'System Email Templates'. The main content area is titled 'System Setup' and is divided into three sections: 'Company', 'User Management', and 'Configuration'. The 'Company' section includes 'Company Profile', 'Business Hours', 'Holidays', and 'Password Policy'. The 'User Management' section includes 'Users', 'Roles', 'Groups', 'Active Directories', 'SAML Configuration', and 'Vault Keys'. The 'Configuration' section includes 'Solutions Setup', 'Environments Setup', and 'Tenant Resources'. Two red arrows point from the bottom of the sidebar to the 'System Setup' title and the 'Configuration' section. The footer contains copyright information and version details.
